

CS200/BA230 Introduction to Computing*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course introduces students to computers. It includes a general description of how micro-, mini- and mainframe computers work and their appropriate applications. The major emphasis of the course is learning the fundamentals of operating a personal computer by gaining an understanding of the hardware and operating system. Fundamentals of program design and application software development are introduced. This course is designed primarily for students who do not have a strong level of expertise with hardware, operating systems and application software. Students must have access to a personal computer to complete course requirements.

Information Systems - Graduate Level

IS619/PAD512 Information Systems*3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

This course provides a comprehensive study of information technologies that support the business environment. Topics include the fundamental concepts of information technologies and systems, managing information topics and systems, end-user computing, decision support and executive support systems, and using the Internet. Students will learn how to use information technologies to gain or maintain a competitive advantage in the workplace.

International Business

BA469 International Management*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course covers the applications of fundamental management concepts, functions and processes to the international dimensions of business. Particular emphasis is given to the strategies and structure of modern international business activities, the cultural differences that affect international business management and the institutional diversity and political risk factors that impact international commercial activities. The role of small and medium-sized firms in these activities and the future demands of international management are also explored.

Management

BA452 Management of Human Resources*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course covers the nature and challenge of personnel management from mechanics to social responsibility, the organization of a work force and the development and management of human resources. Studies creating a favorable work environment, including management and labor relations, remuneration and security for employees.

BA454/PY456 Organizational Behavior*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course examines in detail the nature of behavior within work settings, exploring individual differences, group dynamics, work environment and collective behavior. The focus of the course will deal with how to probe and diagnose the problems of modern organizations and their possible solutions. *Prerequisite: General Psychology, PY250.*

BA462 Managing a Small Business*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course emphasizes fundamental factors concerned with the establishment and competent operation of small business. Topics include financing and sources of funding, preparing a business plan, organizing the business, relevant legal concerns, factors in business success and the future outlook for small business.

BA479/CS480 Managing Technology for Business Strategies*3 Semester Credits**Tuition: \$555 (In Colorado: \$591)**Regis University*

This course develops an executive look at three major topics: Management of Information Systems, System Analysis and Database Management. Students develop an understanding of the strategic issues underlying information systems as well as the technical issues related to developing systems to meet these needs. Strategic issues related to critical success factors such as information's role in making the institution competitive and a leader in its industry, business planning and the different types of information and its uses. Issues related to databases, project management, and functional management are also addressed from the executive perspective. NOTE: Not for CIS majors.

Prerequisites: BA230/CS200 Introduction to Computing and MT270 Introduction to Statistics.

BUAD309 Management and Organizational Behavior*3 Semester Credits**Tuition: \$585**University of Delaware*

The processes and procedures used to manage performance effectively, including behavioral implications and an awareness of the individual's impact on others are examined.

Prerequisite: Junior or senior status required to enroll in course.

BUSAD2010V Introduction to Small Business Management (from the telecourse "Something Ventured")*3 Semester Credits**Tuition: \$375**Oklahoma State University*

An introduction to investigating and evaluating business opportunities, marketing products or services, managing business finances and managing people. Note: This course is for non-business majors.

At this time, consortium certification for financial aid is not available from OSU.

MGMT3013A-V Introduction to Management (From the telecourse "Taking the Lead")*3 Semester Credits**Tuition: \$465**Oklahoma State University*

This video-assisted course explores management principles and decision making as applied to management systems, organizations, interpersonal relationships and production.

Prerequisites: Completion of 50 credit hours and Principles of Accounting II, Macroeconomics, Business Computer Concepts and Elementary Statistics.

At this time, consortium certification for financial aid is not available from OSU.

MGT401 Organizational Behavior*3 Semester Credits**Tuition: \$495**Washington State University*

Organizational behavior, motivation, leadership, communications and decision-making group dynamics.

MGT450 Personnel and Human Resources Management*3 Semester Credits**Tuition: \$495**Washington State University*

Policy and practice in human resource utilization, selecting, training and motivation; evaluating and compensating employees; labor relations and EEO legislation are covered.

WST/MGT315 Women in Management*3 Semester Credits**Tuition: \$495**Washington State University*

An analysis of women's historical and contemporary roles in management. Includes a review of current research on gender and economic issues, assessment of your management style and development of leadership skills.

Prerequisite: None, but interdisciplinary background helpful.

Management - Graduate Level**BAD629 Strategic Management***3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

Taking a global perspective, this course focuses on the role of the general manager in articulating a vision for the business, assessing threats and opportunities in the competitive environment, formulating a strategy for achieving competitive advantage, and designing an organizational architecture for effectively implementing the strategy. Utilizes a combination of lectures, group discussions, and case analysis to raise and examine the key issues.

FIN619/PAD518 Financial Reporting and Management*3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

The process of creating value through raising and allocating funds is the heart of managing organizations. Topics include analyzing and interpreting financial statements for making effective decisions, budgeting and planning as key methods for influencing organizations through resource allocation and control, and the process of raising funds in the capital markets. Each topic will include examples from the public, non-profit, and business sectors showing similarities and differences among them.

Prerequisite: Bachelor's degree from a regionally accredited institution; official results from GRE or GMAT (MPA) or GMAT (MBA).

LHRM619/PAD517 Leading and Managing the Organization of the Future*3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

Both private and public sector organizations are experiencing times of accelerated, transformational change and increased competition. These times of dynamic changes are resulting in significant roles and skill changes for people in leadership and management positions. This course emphasizes the importance of excellent leadership and management skills they will need to succeed in the organization of the future.

Prerequisite: Bachelor's degree from a regionally accredited institution; official results from GRE or GMAT (MPA) or GMAT (MBA).

PHR619/PAD522 Human Resources Management*3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

The technical knowledge and interpersonal skill involved in managing public and private sector personnel have become extremely complex and challenging. This course probes the underlying values and techniques associated with employee recruitment, selection, motivation, training, affirmative action, compensation, benefits, performance appraisal, and related topics.

PRMG629 Contemporary Issues In Operations Management*3 Semester Credits**Tuition: \$650**University of Colorado at Colorado Springs*

This course is an overview of the design, analysis and interpretation of production systems in manufacturing, service, and public organizations. Cost/managerial accounting implications and performance measurement techniques also will be examined. There will be an introduction to the state of the art tools and techniques that help various organizations effectively serve their customers in a wide variety of environments. A variety of pedagogical tools will be used including experimental exercises, simulation and field studies.

Marketing

BA429 Advertising and Promotion

3 Semester Credits

Tuition: \$555 (In Colorado: \$591)

Regis University

This course analyzes the functions associated with various advertising and promotional activities in the marketplace. Students evaluate current advertising in the media and explore promotional strategies and advertising campaigns for products and services in today's economy. Topics include the social and ethical aspects of the advertising industry, as well as specific challenges for international advertising campaigns.

Prerequisite: Marketing Principles, BA420.

BUAD301 Introduction to Marketing

3 Semester Credits

Tuition: \$585

University of Delaware

Management of the marketing functions, marketing research, product planning, distribution channels, pricing, personal selling and advertising. Emphasis on consumer and industrial markets.

Prerequisite: Junior or Senior status required to enroll in course, ECON151 Introduction to Microeconomics.

MKTG477 Promotion Management

3 Semester Credits

Tuition: \$495

Washington State University

A concentrated examination of fundamental principles of marketing including product and service development, positioning, distribution, promotion, and pricing.

Marketing Management - Graduate Level

MK629 Marketing Management

3 Semester Credits

Tuition: \$650

University of Colorado at Colorado Springs

This is a text and case approach to integrating promotion into the marketing plan and includes discussion of methods, organization, communications, media selection and campaigns.

Public Administration - Graduate Level

PAD501 Public Service in a Complex Society

3 Semester Credits

Tuition: \$650

University of Colorado at Colorado Springs

It is a time of rapid change, resource limitations, and questioning of the roles of public service organizations and professionals in American society. In such a time, it is essential for practitioners and citizens to understand the history, nature, and scope of public service. This course explores the creation of American public and nonprofit institutions, the ways organizations are structured and managed, and the role of the public service practitioner in the challenging contemporary setting.

COMPUTER SCIENCE AND INFORMATION MANAGEMENT

UNIV300 Accessing Information for Research*1 Semester Credits**Tuition: \$165**Washington State University*

In this course students learn how to do research from a distance using electronic mail and the Internet to access a variety of databases, online catalogs and commercial end-user services such as CARL, Uncover and Firstsearch.

Prerequisite: Students must have full access to the Internet, including full telnet capability (Modem, e-mail)

EARLY READING INSTRUCTION - GRADUATE LEVEL

RDG504 Teaching Reading in the Elementary School*3 Semester Credits**Tuition: \$350**University of Colorado at Colorado Springs*

Comparative analysis of predominant current philosophies/methods of reading instruction, current organizational procedures, foundations of reading instruction and comprehension activities in the elementary school are included in this course.

Prerequisites: Proof of undergraduate degree; participants should be teachers or should be involved in teaching or tutoring reading.

RDG509 Facilitating Reading Development in the Kindergarten and Preschool Classroom*2 Semester Credits**Tuition: \$235**University of Colorado at Colorado Springs*

This course presents a workable process for literacy development to teachers of young children. The class will provide strategies, methods and materials that will help adults create literate environments for children.

Prerequisite: Proof of undergraduate degree.

RDG510 Informal Diagnostic and Remedial Techniques of Reading*3 Semester Credits**Tuition: \$350**University of Colorado at Colorado Springs*

This course examines causes of low reading ability, diagnosis, motivation, skills and techniques employed in teaching the poor reader.

Prerequisite: Proof of undergraduate degree.

RDG515 The Reading - Writing Connection*3 Semester Credits**Tuition: \$350**University of Colorado at Colorado Springs*

This course will present information relevant to the acquisition of reading and writing. The connections among the language arts of listening, speaking, reading and writing will be explored. Strategies for fostering reading and writing will be presented.

Prerequisite: A bachelor's degree or teacher consent is required.

EDUCATIONAL TECHNOLOGY - GRADUATE LEVEL**EDUC212 Quantitative Methods I: Introduction to Survey Measurements and Research***By special arrangement Tuition: \$725**The George Washington University*

Emphasis is on application and interpretation of data-gathering techniques and descriptive statistics. This course is not required for students who have completed an equivalent course in educational tests and measurement techniques and evaluation.

EDUC220a Media Services Management*3 semester credits Tuition: \$725**The George Washington University*

The integration of various information resources into educational situations. Managing the media programs, personnel, budgets and public relations necessary for effective media services. The design of media-related instruction and media facilities.

EDUC220b Instructional Design and Systems*3 Semester Credits Tuition: \$725**The George Washington University*

This course surveys the conceptual and theoretical foundations of instructional and systems design in the context of educational technology.

Prerequisite: EDUC232 or equivalent.

EDUC220c Telecommunications in Education*3 Semester Credits Tuition: \$725**The George Washington University*

This course presents the history, current application and future use of telecommunication technologies in educational contexts. Students will gain a practical understanding of the use and implications of communications systems such as telephone lines and networks, cellular systems, radio and television transmission and reception, cable television, fiber optics, satellites and the electronic devices which make use of them.

EDUC220d Developing Interactive Multimedia*3 Semester Credits Tuition: \$725**The George Washington University*

This course examines approaches to developing interactive multimedia. Phases in the process which are specifically addressed include project analysis, design, development, production, authoring and validation. Students will review examples of existing applications and apply their acquired knowledge in the design of an original project.

EDUC220h Learning Technology and Organizations*3 Semester Credits Tuition: \$725**The George Washington University*

Technology is reshaping how organizations work and how learning takes place in organizations. This course examines such changes in the context of educational technology leadership, primarily through case studies of particular organizations.

EDUC230 Managing Computer Applications*3 Semester Credits Tuition: \$725**The George Washington University*

For managers and prospective managers in education and human services who are concerned with the automation of their operations. Basic principles needed to design, implement and manage an information system.

EDUC231 Educational Hardware Systems*3 Semester Credits**Tuition: \$725**The George Washington University*

An exploration of the design and implementation of educational hardware systems including computers, videodiscs, networks, video systems and ITV for educational use.

EDUC232 Applying Educational Media and Technology*3 Semester Credits**Tuition: \$725**The George Washington University*

An introductory course in theory and practice of educational technology for persons using technology in settings in which effective communication, information sharing and learning are important. Key characteristics of different media are surveyed, principles of applications are presented and issues concerning their appropriate use are discussed.

EDUC234 Computers in Education and Human Development*3 Semester Credits**Tuition: \$725**The George Washington University*

The research and practice surrounding the use of computers in education and training setting. Students will acquire the practical knowledge necessary to the development and evaluation of computer-related curricula through the study of current software applications and programming environments.

EDUC235 Design and Implementation of Educational Software*3 Semester Credits**Tuition: \$725**The George Washington University*

Theory and practice of creating educational software, psychological basis of using software in learning, instructional programs, authoring tools, artificial intelligence applications and interactive media. Students are required to design, program and evaluate an educational program.

Prerequisite: EDUC232 and EDUC234 (or permission from instructor).

EDUC268 Power, Leadership and Education*3 Semester Credits**Tuition: \$725**The George Washington University*

The nature of power, leadership and education; the relationship of power to leadership; the essential nature of education in the exercise of power and leadership in a democratic setting.

EDUC271 Policy-Making for Public Education*3 Semester Credits**Tuition: \$725**The George Washington University*

The nature of educational policy; the role of special interest groups, the courts, legislative bodies, administrative bureaucracies and professionals in establishing parameters and allocating resources. Analysis of specific techniques of policy formation.

EDUC293 Independent Study*3 Semester Credits**Tuition: \$725**The George Washington University*

Enrollment in this course is by permission of the instructor only.

EDUC295 Quantitative Methods II: Research Procedures*3 Semester Credits**Tuition: \$725**The George Washington University*

Required of all candidates for master's degrees in education. Analysis of scientific approaches to problems in education and evaluation of research techniques.

Prerequisite: EDUC212 or equivalent.

HOTEL, RESTAURANT AND INSTITUTIONAL MANAGEMENT**HRIM180 Introduction to Hospitality***3 Semester Credits**Tuition: \$585**University of Delaware*

Objectives within the industry, the means of achieving these objectives and opportunities for career development. History of hospitality, current trends and related issues.

HRIM280 Property Management*3 Semester Credits**Tuition: \$585**University of Delaware*

Introduction to problems of cost and operational control of security, safety, parking, preventive maintenance, laundry, HVAC, electrical, refrigeration, plumbing, fire prevention, care of guest rooms and public space. Emphasis on equipment, personnel and technology.

HRIM320 Hotel, Restaurant and General Food Service Purchasing*3 Semester Credits**Tuition: \$585**University of Delaware*

Principles of purchasing food and beverage supplies for hotels, restaurants and general food service. Marketing selection principles, buying procedures, supplier choice and receiving.

HRIM380 Management of Lodging Operations*3 Semester Credits**Tuition: \$585**University of Delaware*

Management of front desk, housekeeping, maintenance, security and conference operations.

Prerequisite: HRIM280, Property Management, or permission of department.

HRIM381 Management of Food and Beverage Operations*3 Semester Credits**Tuition: \$585**University of Delaware*

Management tools available to control sales and expenses in food and beverage operations. Analysis of centers of responsibility and cost management approach to development of control systems.

Prerequisite: NTD T321, Quantity Food Production and Service.

*"I was
able to stay in the
program without
having to stop
working. Plus, I had
the convenience of
taking classes whenever they fit
into my schedule."*

HRIM382 Managerial Accounting and Finance in the Hospitality Industry*3 Semester Credits**Tuition: \$585**University of Delaware*

Generation and analysis of quantitative information for planning control and decision making by managers at various levels. Use of timely and relevant information as a vital tool in management. *Prerequisite: ACCT208, Accounting II*

HRIM480 Human Relations in the Hospitality Industry*3 Semester Credits**Tuition: \$585**University of Delaware*

Techniques and philosophies of personnel management as applied to various types of hospitality operations. Motivation, attitude formation and job satisfaction. Case studies related to theories of organizational behavior and industrial psychology.

HRIM481 Marketing in the Hospitality Industry*3 Semester Credits**Tuition: \$585**University of Delaware*

Application of marketing principles in hotel, restaurant and institutional management settings. Development of marketing strategies in both profit and nonprofit hospitality operations.

HRIM482 Law of Innkeeping*3 Semester Credits**Tuition: \$585**University of Delaware*

Introduction to the laws relating to hotel, restaurant and institutional operations. *Prerequisite: ACCT352, Law and Social Issues in Business, or permission of department.*

HRIM487 Management Systems in the Hospitality Industry*3 Semester Credits**Tuition: \$585**University of Delaware*

Principles of systems analysis applied to the hospitality industry. Organization of the operation and subsystems of a property. Case studies and simulations apply economic and management principles. *Prerequisite: HRIM380, Management of Lodging Operations, or permission of department.*

HRIM488 HRIM Practicum I*1 Semester Credit**Tuition: \$195**University of Delaware*

To be taken in conjunction with HRIM 380, Management of Lodging Operations. This is the 1-credit lodging component of the 4-credit practicum which is designed to provide opportunities for students to develop greater awareness and understanding of hotel operations through departmental observations and a series of interviews with various hotel managers. Through these activities, students will identify and analyze managerial strategies, guest service challenges, department and employee responsibilities, interdepartmental communication and staff motivational techniques. No videotape component.

HRIM489 Practicum II/ Hospitality Management Institutes*1-6 Semester Credits**Tuition: \$195 per credit**University of Delaware*

Students are required to complete two ten-day resident management institutes at the University's Newark, Delaware campus to fulfill the Practicum II requirement. Each intensive institute provides opportunities for experience in the on-campus Food Service laboratory and an opportunity to network with faculty, other students and industry mentors.

Prerequisites exist for the institutes, please consult your advisor.

HUMANITIES

Art

ART111 Art History I

3 Semester Credits

Tuition: \$360 Colorado Electronic Community College/Arapahoe Community

College Provides the knowledge base to understand the visual arts, especially as related to Western Culture.

Surveys the visual arts from the Ancient through the Medieval periods.

Prerequisite: College level reading and writing skills.

ART112 Art History II

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Provides the knowledge base to understand the visual arts, especially as related to Western Culture. Surveys the visual arts from the Renaissance through the Modern periods.

Prerequisite: College level reading and writing skills.

ART1803V Introduction to Art (From the telecourse "Art of the Western World")

3 Semester Credits

Tuition: \$375

Oklahoma State University

An introduction to the analysis and interpretation of visual arts. Visual, emotional and intellectual aspects of art in painting, sculpture, printmaking and architecture. Course requirements: 9 assignments and 2 exams.

At this time consortium certification for financial aid is not available from OSU.

GEOG4223B Geography of Music

3 Semester Credits

Tuition: \$465

Oklahoma State University

Geographical and historical analysis of music as a cultural trait. The cultural significance of music and how it varies from place to place as well as how it helps shape the character of a place.

At this time, consortium certification for financial aid is not available from OSU.

HUM110 Introduction to Film

3 Semester Credits

Tuition: \$370

Seattle Central Community College

Film message, techniques and effects. Students view, and critically analyze classics, features and documentaries for increased understanding of literary and artistic elements.

MUS101 Introduction to Music

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Comm. College

Covers the basic materials of music, musical formats, media genres, and musical periods. Emphasizes the development of tools for intelligent listening and appreciation of Western Music. *Prerequisite: College-level reading, writing and listening skills.*

English

ENG101 Composition (From the telecourse "A Writer's Exchange")

5 Quarter Credits

Tuition: \$370

Seattle Central Community College

This is an introduction to the writing process. Writing assignments focus on major strategies of non-fiction prose, with subject matter drawn from firsthand experience and observation.

Prerequisite: Satisfactory performance on English placement test.

ENG102 Composition (From the telecourse "A Writer's Exchange")*5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

This course is a continuation of the composition sequence with further instruction and practice in writing with concentration on the critical reading and writing techniques needed for the preparation and completion of documented essays.

Prerequisite: ENG101

ENG121 English Composition I (From the telecourse "A Writer's Exchange")*3 Semester Credits**Tuition \$360**Colorado Electronic Community College/Arapahoe Community College*

Emphasizes the planning, writing and revising of compositions, including the development of critical and logical thinking skills. Includes a minimum of five (5) compositions, which may include expressive and informative writing, but stresses analytical, evaluative and persuasive writing.

Prerequisite: College level reading and writing skills.

ENG122 English Composition II*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Expands and refines the objectives of English Composition I. Emphasizes critical/logical thinking and reading, problem definition, research strategies, and writing analytical, evaluative and/or persuasive papers that incorporate research.

Prerequisite: ENG121 English Composition I or equivalent or instructor permission.

ENGL3323D Technical Writing*3 Semester Credits**Tuition: \$465**Oklahoma State University*

Applied writing in areas of specialization. Intensive practice in professional writing modes, style, research techniques and editing for specialized audiences and/or publications. This course may be substituted for ENGL1312 with an "A" or "B" in ENGL1113 and consent of the student's college.

Prerequisite: ENGL1113, 1213 (English Composition I and II), and junior standing.

ENGL/WST309 Women Writers*3 Semester Credits**Tuition: \$495**Washington State University*

Women's artistic and intellectual contributions to prose, fiction, drama and poetry, with emphasis on American women in the West.

Prerequisite: Students must have full access to the Internet, including full telnet capability. (Modem, e-mail).

ENGL402 Technical and Professional Writing*3 Semester Credits**Tuition: \$495**Washington State University*

Research writing including defining, proposing, reporting progress, presenting a final product and other professional writing needs.

General Humanities**BC300 Integrated Humanities***3 Semester Credits**Tuition: \$475**International University*

Literature: Study and analysis of fiction, poetry and drama with emphasis on understanding the art techniques of each genre. Introduction to Art: Historical backgrounds and design fundamentals which have affected art. Includes lectures, reading and some practical applications. Music in the Western World: Introduction to classical music providing an understanding of musical expression through works of the great composers. Emphasizes music listening through recordings and CD's.

HUM121 Survey of Humanities I*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Introduces students to the history of ideas in Western cultures through a study of the visual arts, literature, drama, music and philosophy of early civilizations, Greek and Roman antiquity and Christian eras. Emphasizes connections among the arts, values and diverse cultures.

Prerequisite: College-level reading and writing skills.

HUM122 Survey of Humanities II*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Examines the Medieval, Renaissance and Baroque periods through a study of the visual arts, literature, music and philosophy. Compares and contrasts diverse cultural ideas and feminine and masculine viewpoints.

Prerequisite: College-level reading and writing skills.

Literature**ENG131 Introduction to Poetry (From the telecourse "Voices and Visions")***5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Study and analysis of the form, meaning, music and metaphor of poetry from medieval times to the present.

ENG135 Introduction to Literature (From the telecourse "Literary Visions")*5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Study and analysis of fiction, poetry and drama with emphasis on understanding the art and technique of each genre.

ENGL4413V American Poetry Post 1900 (From the telecourse "Voices and Visions")*3 Semester Credits**Tuition: \$465**Oklahoma State University*

Explores the lives and works of 13 American poets.

At this time, consortium certification for financial aid is not available from OSU.

LIT115 Introduction to Literature*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Introduces students to fiction, poetry and drama. Emphasizes active and responsive reading.

Prerequisite: College-level reading and writing skills.

LIT202 Masterpieces of Literature II*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Examines significant writings in world literature from the seventeenth century to the present. Emphasizes careful reading and understanding of the works and their cultural backgrounds.

Prerequisite: College-level reading and writing skills.

Speech**BC322 Public Speaking***3 Semester Credits**Tuition: \$475**International University*

Expressing ideas through public speaking is an important part of business. This course provides you with the fundamental concepts and skills needed for effective public speaking. You can improve your performance as a public speaker by understanding and practicing the basic principles of effective presentations.

SPE115 Principles of Speech*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Combines the basic theory of speech communication with public speech performance skills. Emphasizes speech delivery, preparation, organization, support and audience analysis.

Prerequisite: College-level reading and writing skills.

MATHEMATICS**MAT105 Elementary Functions***5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Introduction to functions: polynomial, rational, exponential, logarithmic and trigonometric.

Prerequisite: MAT101 or MAT102 or placement exam. Please contact SCCC for further information.

MAT121 College Algebra (From the telecourse "College Algebra: In Simplest Terms")*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Includes a brief review of intermediate algebra, equations and inequalities, functions and their graphs, exponential and logarithmic functions, linear and non-linear systems, selection of topics from among graphing of the conic sections, introduction to sequences and series, progressions, permutation and combinations, the binomial theorem and theory of equations. It is highly recommended that you have taken an intermediate algebra course or equivalent in the last 3 years.

Prerequisite: intermediate algebra or equivalent skills. Self-assessment pre-test available.

MAT135 Introduction to Statistics*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Includes data presentation and summarization, introduction to probability concepts and distributions, statistical inference-estimation, hypothesis testing comparison of populations, correlation and regression.

Prerequisite: Intermediate algebra or equivalent or score on a pre-assessment test or instructor's consent.

MATH114 College Math & Statistics*3 Semester Credits**Tuition: \$585**University of Delaware*

Basic algebra skills and concepts with a strong emphasis on graphing and applications in the areas of management, life, and social sciences. Topics include exponential functions, logarithms, statistics, linear programming and arithmetic and geometric sequences.

Prerequisite: MATH 012 - Concepts of Intermediate Algebra or MATH 010 - Intermediate Algebra

MATH115 Pre-Calculus*3 Semester Credits**Tuition: \$585**University of Delaware*

Develops concepts required for calculus around the unifying notions of a function and the graph of a function (polynomial, algebraic, exponential, logarithmic and trigonometric functions). Familiarity with the central concepts of algebra (functions, solving equations, simplifying algebraic expression, and laws of exponents) recommended.

MATH221 Calculus I*3 Semester Credits**Tuition: \$585**University of Delaware*

Topics include functions, graphing functions, limits, derivatives, sequences, series, exponential and logarithmic functions, and integration. This course requires the purchase and use of a graphing calculator.

Prerequisite: Two years of high school algebra and one year of geometry.

STAT2013A-V Elementary Statistics (From the telecourse "Against All Odds")*3 Semester Credits**Tuition: \$375**Oklahoma State University*

An introductory course in the theory and methods of statistics. Descriptive measures, elementary probability, samplings, estimation, hypothesis in testing, correlation and regression. No credit for students with credit in STAT2023V.

Prerequisite: College algebra. At this time consortium certification for financial aid is not available from OSU.

STAT2023V Elementary Statistics for Business and Economics (From the telecourse "Against All Odds")*3 Semester Credits**Tuition: \$375**Oklahoma State University*

Descriptive statistics, basic probability, discrete and continuous distributions, point and interval estimation, hypothesis testing, correlation and simple linear regression. No credit for students with credit in STAT2013A-V.

Prerequisite: College algebra.

At this time consortium certification for financial aid is not available from OSU.

STAT3013V Intermediate Statistical Analysis (From the telecourse "Against All Odds")*3 Semester Credits**Tuition: \$465**Oklahoma State University*

Application of elementary statistics, intro. expert. design, intro to analysis of variance, simple and multiple linear regression, nonparametric statistics, survey sampling, time series and Bayesian analysis.

Prerequisites: Elementary Statistics (STAT2013V or STAT2023V).

At this time, consortium certification for financial aid is not available from OSU.

NURSING**BSN310 Expanding Professional Nursing Horizons***2 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

The increasing complexity and changes in professional nursing demand constant evaluation and planning for formal and informal education. This course presents a systematic problem-solving approach which will help nurses assess their own roles and options, establish career goals and identify resources which can guide them on a path toward fulfilling their own personal and professional aspirations.

BSN315 Life Cycle*4 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

The course explores the biological, psychological, cognitive, and social aspects of human development throughout each stage of the life cycle. While the first three modules are organized around the growth of the individual within the context of the family, the fourth examines the developmental aspects of adults who are temporarily or permanently living an alternative lifestyle.

Prerequisite: BSN310.

BSN325 Culture and Health

4 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the relationship between the various components of culture and the dynamics of health and illness. Basic anthropological concepts are used to interpret varying conceptions of health and illness and significant dimensions of cultural variations are analyzed in relationship to health attitudes. Basic tools for cross-cultural health studies are applied to specific problems in health. Human institutions and their connection to health and illness are examined from a cross-cultural perspective. Alternative health care delivery systems are compared and a transcultural approach to health care is presented.

Prerequisite: BSN310.

BSN335 Biochemistry

4 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the principles underlying the chemistry of living systems including the molecular basis by which the human organism meets the vital needs of materials, energy and information. It provides an introduction to the chemistry of bioenergetics, metabolism, biosynthesis and molecular physiology. By translating the unique language of biochemistry into understandable terms, this course will enable the health professional to apply the vocabulary and concepts of biochemistry to everyday practice.

Prerequisite: BSN310.

BSN340 Professional Relationships in Nursing Practice

3 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores professional interaction including the significance of personal awareness, beliefs and values. Communication theory and styles are defined and the essential elements of a therapeutic relationship are analyzed. Attention is given to crisis intervention techniques. The course includes an integrated performance component where students in a field experience setting apply theoretical knowledge in communicating effectively with health team members, clients and families.

Prerequisite: BSN310.

BSN345 Pathophysiology

4 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the response of the human body to illness and injury with respect to common disorders of the major systems. Clinical correlations are provided to assist the health professional in applying this knowledge toward more effective patient care.

Prerequisite: BSN335 or consent of faculty coordinator.

BSN360 Professional Issues in Nursing

4 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the foundations of professional nursing from historical, philosophical, ethical, political and legal perspectives. Significant issues are analyzed and strategies presented to foster excellence in nursing practice. The relationship between theory, research, and the nursing process is discussed in-depth and related to problem solving in the profession. The health care delivery system is examined, as are the diverse roles and settings for nursing practice.

Prerequisite: BSN310.

BSN370 Health Teaching

2 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course is designed to assist the professional nurse in addressing the learning needs of clients. In addition to enhancing his or her skills as a health teacher, the student will develop an understanding of the philosophical and scientific foundations of patient education as well as professional and social issues which confront those individuals who provide such services.

Prerequisites: BSN315 and BSN325 or consent of national nursing coordinator. Note: Consent is granted to students enrolled in BSN310 in Summer 1995.

BSN380 Health Assessment

4 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course provides an opportunity to gain the knowledge and skills required to perform a complete health assessment. In addition to history-taking and physical examination techniques, emphasis is also given to the analysis and synthesis of the data collected in order to identify health care problems and develop a management plan within the context of the nursing process. An integrated performance module provides the opportunity for application of knowledge and skills in the practice setting.

Prerequisite: All other BSN300 level courses.

BSN405 Statistics

3 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

Satisfies the Quantitative Reasoning requirement. Includes development and application of the following topics: Descriptive and Inferential Statistics, Mathematics of Finance, Linear Programming and Graph Theory.

Prerequisite: Fulfillment of the ELM requirement for BSN students and BSN310.

BSN410 Health Management I

5 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course investigates how the community health nurse promotes the health of individuals and families in the community. The theoretical foundations and methodology of community health nursing practice are explored as well as the health barriers which the community health nurse seeks to overcome. Family theory and the family nursing process are analyzed. The course also examines how a community health nurse working in a home health care agency addresses the nursing care problems of specific client populations. The course includes a performance component where students in a field-experience setting apply the theoretical constructs of community health nursing to health care situations encountered in a community health agency. The performance component may be completed concurrently with the BSN420 performance component directly following completion of all BSN410 and 420 theory modules.

Prerequisite: BSN380.

BSN420 Health Management II

5 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the field of community health nursing from an epidemiological perspective and focuses on the personal and environmental health of the total population. Attention is given to group process and change agency. Methods of epidemiology are examined and related to appropriate nursing interventions at each level of prevention. Epidemiological principles are applied to situations that community health nurses commonly encounter in their work with official health departments. The course also includes a performance component where students in a field experience setting apply the theoretical constructs of community health nursing to health care situations encountered in the official department.

Prerequisite: BSN410 and BSN460 or consent of faculty coordinator.

BSN460 Research in Nursing Practice

3 Units

Tuition: \$210 per unit

California State University, Dominguez Hills

This course explores the evolution of contemporary nursing research and its relationship to nursing science, theory and practice. From the perspective of the investigative role of the professional nurse, knowledge of the research process will be developed and applied to skillful and systematic analysis of research studies and findings. The process of developing a research proposal derived from a practice issue or question will be examined.

Prerequisite: BSN405.

BSN480 Leadership in Nursing Practice*3 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

This course explores effective and ineffective leadership styles and the role of leader is emphasized. Change agency processes are discussed and factors affecting assignment-making and evaluation of personnel are identified. The course includes an integrated performance component where students in a field experience setting practice professional nursing leadership for a nursing team, including team conferences, patient assignments, problem-solving, written communications within an institution and performance appraisals of nursing personnel.

Prerequisite: BSN420 and BSN460.

BSN490 Management in Nursing Practice*3 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

This course explores contemporary management theories, issues of power sharing, labor relations management, patient care evaluation, standards development and the emergence of computers as a management tool for nursing. The course includes an integrated performance component where students in a field experience setting practice systems analysis, flow charting, performance evaluation, nursing policy development, nursing quality evaluation and financial evaluation of a segment of a nursing system.

Prerequisite: BSN420 and BSN460.

BSN494 Independent Study*1-3 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

A course of study designed cooperatively by student and instructor, and approved by the Program Director, to accomplish individualized learning objectives that are appropriate to the role of the professional nurse. (Students should contact advisor prior to enrolling to determine the appropriateness of this course for degree completion.)

BSN495 Special Topics/Colloquia*1-3 Units**Tuition: \$210 per unit**California State University, Dominguez Hills*

These courses offer student groups an opportunity to explore a topic of current interest to the nursing profession with colleagues, faculty and special guest speakers.

BSN495a Managed Health Care: RN Role Development Imperatives*1 Unit**Tuition: \$210**California State University, Dominguez Hills*

Nurses at the baccalaureate level are introduced to the role development implications of the emerging managed health care environment. Explores the evolution of managed care, its role in the current health care system, and the philosophical foundations upon which it is based. Also examines critical issues in the delivery of effective nursing care in managed health care setting.

PORTFOLIO**EDU155 Portfolio Development***2 Semester Credits**Tuition: \$240**Colorado Electronic Community College/Arapahoe Comm. College*

A required course for adults interested in applying for credit for non-college learning gained through work/life experience. Students will learn to identify, describe, and document skills and knowledge gained through non-college learning experiences and to prepare a portfolio which will be evaluated for awarding of credit. Following a group orientation meeting, subsequent small group meetings and/or individual meetings, telephone conferencing with instructor, and use of FAX or e-mail will be used to maintain contact with instructor.

SCIENCE**Animal Sciences and Industry****ANSI3543 Principles of Animal Nutrition***3 Semester Credits**Tuition: \$465**Oklahoma State University*

Basic principles of animal nutrition including digestion, absorption, and metabolism of the various food nutrients; characteristics of the nutrients; measure of the body needs and ration formulation.

Prerequisite: CHEM1215 or equivalent (General Chemistry I).

At this time consortium certification for financial aid is not available from OSU.

ANSI3903 Agricultural Animals of the World*3 Semester Credits**Tuition: \$465**Oklahoma State University*

The production and utilization of agricultural animals by human societies.

At this time consortium certification for financial aid is not available from OSU.

Astronomy**AST100 Astronomy (From the telecourse "Universe: The Infinite Frontier")***5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Emphasis on astronomic concepts fundamental to an understanding of the solar system, stars, galaxies, and origin and history of the universe.

AST101 Astronomy I (From the telecourse "Universe: The Infinite Frontier")*4 Semester Credits**Tuition: \$480**Colorado Electronic Community College/Arapahoe Community College*

Studies the history of astronomy, the tools of the astronomer and the contents of the solar system: the planets, moons, asteroids, comets and meteoroids. Includes laboratory experience.

Prerequisite: College-level reading and writing skills.

AST102 Astronomy II (From the telecourse "Universe: The Infinite Frontier")*4 Semester Credits**Tuition: \$480**Colorado Electronic Community College/Arapahoe Community College*

Study the structure and life cycle of the stars, the sun, galaxies and the universe as a whole, including cosmology and relativity. Includes laboratory experience.

Prerequisite: College-level reading and writing skills.

Biology**BIOS101 Direction in Biological Sciences***3 Semester Credits**Tuition: \$495**Washington State University*

This course emphasizes an understanding of biology as a science and its effect on issues within society.

Credit is not granted for more than one of BIOS 101, 102, and 103.

BIOS105 Biological Science Laboratory*1 Semester Credits**Tuition: \$165**Washington State University*

This course explores elements of structure and functions of organisms.

BISC110 Viruses, Genes, and Cancer*3 Semester Credits**Tuition: \$585**University of Delaware*

Examines recent advances in biology at the cellular and subcellular levels of organization, techniques used in modern biology and implications for society. Open to non-majors only.

Environmental Science

ENV150 Environmental Issues and Problems I (From the telecourse "Race to Save the Planet")*5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Covers natural principles governing operation of the environment including interactions between humans and the environment, emphasizing the attitudes and actions necessary to maintain a healthy ecosystem.

Geology

GEL101 Physical Geology (From the Telecourse "The Earth Revealed")*5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Origin and development of minerals and rocks, changing features of the earth's crust and the processes which have shaped these features. Lab included. One Saturday field trip required.

GEY111 Physical Geology (From the telecourse "The Earth Revealed")*4 Semester Credits**Tuition: \$480**Colorado Electronic Community College/Arapahoe Community College*

Studies the materials of the earth, its structure, surface features and the geologic processes involved in its development. Includes laboratory experience.

Prerequisite: College-level reading and writing skills.

Geography

GEO105 Geography (From the telecourse "The Power of Place: World Regional Geography")*3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Facilitates an understanding of spatial relationships between and among the geographic regions of the world. Included are demographic and cultural (political, economic, and historic) forces related to the physical environments of selected regions. Methods of study included analysis of/and interrelationships between developed and developing regions.

Prerequisite: College-level reading and writing skills.

Physics

PHY105 Conceptual Physics*4 Semester Credits**Tuition: \$480**Colorado Electronic Community College/Arapahoe Community College*

Mechanics, heat, properties of matter, electricity and magnetism, light and modern physics. Includes laboratory.

Prerequisite: College-level reading and writing skills. Some algebra is preferred.

SOCIAL SCIENCES**Anthropology****ANT101 Cultural Anthropology (From the telecourse "Faces of Culture")***3 Semester Credits**Tuition: \$360**Colorado Electronic Community College/Arapahoe Community College*

Studies human cultural patterns and learned behavior. Includes linguistics, social and political organization, religion, culture and personality, culture change and applied anthropology.

Prerequisite: College-level reading and writing skills

ANT202 Cultural Anthropology (From the telecourse "Faces of Culture")*5 Quarter Credits**Tuition: \$370**Seattle Central Community College*

Introduction to human culture, including social organization, economics, political systems, religion, technology, values, art and language.

ANTH350 Speech, Thought and Culture*3 Semester Credits**Tuition: \$495**Washington State University*

This course examines the role of language in social situations and as a reflection of cultural differences.

ANTH316 Gender and Culture*3 Semester Credits**Tuition: \$495**Washington State University*

This course is a cross-cultural examination of the status and roles of women and men, the institution of marriage and symbols of gender valuation will be addressed.

ANTH3353A-V Cultural Anthropology (From the telecourse "Faces of Culture")*3 Semester Credits**Tuition: \$465**Oklahoma State University*

Introduction to culture, various subdisciplines of cultural anthropology, anthropological concepts and capsule ethnographies of assorted ethnic groups.

At this time the consortium certification for financial aid is not available from OSU.

SPAN316 Hispanic American Culture*3 Semester Credits**Tuition: \$495**Washington State University*

Contemporary social, political and cultural issues are explored through literature.

Criminal Justice**CRMJ320 Criminal Law***3 Semester Credits**Tuition: \$495**Washington State University*

This course offers an examination of the principles, functions and limits of substantive criminal law. It also includes a study of basic crime categories and state and national legal research materials.

CRMJ330 Crime Control Policies*3 Semester Credits**Tuition: \$495**Washington State University*

This course presets an analysis of social and organizational contexts, ideologies and standards which influence the making, implementation and impact of crime control policies. Focus on advocated reforms of specific current crime control practices and policies, e.g., community policing, selective incapacitation, gun control, exclusionary rule or victims' rights.

CRMJ405 Comparative Criminal Justice Systems*3 Semester Credits**Tuition: \$495**Washington State University*

This course is a comparative study of criminal justice systems in the United States and selected foreign countries.

General Social Sciences

ED202 Experiential Learning and Assessment (Portfolio)

1 Semester Credit

Tuition: \$185 (In Colorado \$197)

Regis University

This course is designed to help students assess their experiential learning background. Theories of adult learning and learning styles will be explored and applied to personal and work settings. Students will prepare a learning autobiography and portfolio demonstrating their knowledge, skills and experience.

GENST400 General Studies Portfolio

1 Semester Credit

Tuition: \$165

Washington State University

This course is an evaluation of one's educational experience and presentation of that evaluation in written form. Provides the culminating experience for the Washington State University Social Science Degree.

History

HIS101 Western Civilization I (The Renaissance: The Origins of the Modern West)

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Explore the major political, economic, social, diplomatic/military, cultural and intellectual events and roles of key personalities that shaped Western civilization in Europe from the late 14th through the 17th centuries and how the issues raised in this period continue to influence the modern world.

Prerequisite: College-level reading and writing skills.

HIS102 Western Civilization II

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Explore the major political, economic, social, diplomatic/military, cultural and intellectual events and roles of key personalities that shaped Western civilization from 1650 to the present day.

Prerequisite: College-level reading and writing skills.

HIS201 U.S. History I

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Examine the major political, economic, social, diplomatic, military, and intellectual events in American history from the first inhabitants through the Civil War/Reconstruction.

Prerequisite: College-level reading and writing skills.

HIS202 U.S. History II

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Examine the major political, economic, social, diplomatic/military, cultural and intellectual events in American History from reconstruction to the present.

Prerequisite: College-level reading and writing skills.

HIS210 The Far East in the Modern World (From the telecourse "Pacific Century")

5 Quarter Credits

Tuition: \$370

Seattle Central Community College

Study of the transformation of East Asia and its contributions to the modern world. Emphasis upon responses to the problems and challenges of economic, political and social development. Attention to the impact of China and Japan on contemporary East Asia.

Prerequisite: College-level reading and writing skills.

HIST331 Cultural History in Latin America

3 Semester Credits

Tuition: \$495

Washington State University

This course explores the social development of Blacks, Whites and Indians in Latin America from the conquest to the modern era.

HIST341 Rome: Republic and Empire

3 Semester Credits

Tuition: \$495

Washington State University

This course examines the history and culture of the Roman world from the independence of the city to the onset of the medieval order.

HIST416 Civil War and Reconstruction

3 Semester Credits

Tuition: \$495

Washington State University

This course focuses on the Civil War as a problem in historical causation as well as social, political, and economic impacts of the war. Credit not granted for both HIST416 and HIST516.

HIST422 History of the Pacific Northwest

3 Semester Credits

Tuition: \$495

Washington State University

This course fulfills the teaching certificate requirement in state history and government in Washington and other Pacific Northwestern States.

HIST468 Hitler and Nazi Germany

3 Semester Credits

Tuition: \$495

Washington State University

This course examines the rise and fall of Nazism and Hitler, Nazi racial theories, Hitler's triumph, the Third Reich, Holocaust and Goetterdaemmerung.

HIST1483A-V American History to 1865 (From the telecourse "The American Adventure")

3 Semester Credits

Tuition: \$375

Oklahoma State University

This course studies American history from its European background through the Civil War.

At this time the consortium certification for financial aid is not available from OSU.

HIST1493A-V American History from 1865 (From the telecourse "America in Perspective")

3 Semester Credits

Tuition: \$375

Oklahoma State University

This course examines the development of the United States, including the growth of industry and its impact on society and foreign affairs.

At this time the consortium certification for financial aid is not available from OSU.

HIST1613A-V Western Civilization to 1500 (From the telecourse "Western Tradition I")

3 Semester Credits

Tuition: \$375

Oklahoma State University

Students will study the history of Western civilization from the ancient world to the Reformation.

At this time the consortium certification for financial aid is not available from OSU.

HIST1623A-V Western Civilization after 1500 (From the telecourse "Western Tradition II")

3 Semester Credits

Tuition: \$375

Oklahoma State University

Students learn about the history of Western civilization from the Reformation to the present.

At this time the consortium certification for financial aid is not available from OSU.

HIST3013 Ancient Near East

3 Semester Credits

Tuition: \$465

Oklahoma State University

The ancient world from the beginnings of recorded history through the Egyptian, Mesopotamian, Hebrew, and Persian civilizations, in addition to the minor civilizations of the area.

At this time the consortium certification for financial aid is not available from OSU.

HIST3023A Ancient Greece

3 Semester Credits

Tuition: \$465

Oklahoma State University

The Greek world from the Bronze Age through Alexander the Great with special emphasis on politics, culture, and institutions of classical Greece.

At this time the consortium certification for financial aid is not available from OSU.

HIST3033A Ancient Rome

3 Semester Credits

Tuition: \$465

Oklahoma State University

Political, social, economic and cultural history of the Roman Republic and Empire.

At this time the consortium certification for financial aid is not available from OSU.

HIST3413 East Asia Since 1800

3 Semester Credits

Tuition: \$465

Oklahoma State University

Impact of the Occident on China, Japan and Southeast Asia. Problems of race and diplomacy, political and industrial transformation of Japan, revolutionary process in China and the rise of nationalism in Southeast Asia. Students must have access to a typewriter or computer with printer.

At this time the consortium certification for financial aid is not available from OSU.

HIST3423V Modern Japan (From the telecourse "Japan: A Changing Tradition")

3 Semester Credits

Tuition: \$465

Oklahoma State University

Modernization process in Japan since 1868.

At this time the consortium certification for financial aid is not available from OSU.

HIST3433 Modern China

3 Semester Credits

Tuition: \$465

Oklahoma State University

Response of China to the West since 1840, with stress on economic, social and intellectual currents. Students must have access to a typewriter or a computer with a printer.

At this time the consortium certification for financial aid is not available from OSU.

HIST3980.1V Studies in History: Traditional Japan (From the telecourse "Japan: The Living Tradition")

3 Semester Credits

Tuition: \$465

Oklahoma State University

Japan's early society and borrowing from China, followed by development of something distinctively Japanese: the world of the samurai warrior.

At this time the consortium certification for financial aid is not available from OSU.

HIST3980.2V Studies in History: Great Plains Experience

3 Semester Credits

Tuition: \$495

Oklahoma State University

The history of the Great Plains region of the United States from prehistoric times to the 1970s. Political, economic and social developments which promoted settlement of the region examined by using interdisciplinary materials.

Philosophy

PHI112 Ethics (From the telecourse "Ethics in America")

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Examines ethical issues and conflicts together with moral theories and approaches for solving them. Students will develop skills for understanding and evaluating diverse ethical opinions.

Prerequisite: College-level reading and writing skills.

PHI215 Introduction to Ethics (From the telecourse "Ethics in America")

5 Quarter Credits

Tuition: \$370

Seattle Central Community College

Deals with three questions: What am I to do, and why? What am I to be? How can I be what I choose to be?

Examines ethical principles of Aristotle, Mill, Aquinas, Kant, existentialism and situation ethics. Includes current problems in medical ethics. Explores ideas of duty, justice, responsibility, guilt, virtue and human excellence.

PHIL101 Great Western Philosophers

3 Semester Credits

Tuition: \$585

University of Delaware

Survey of the key ideas of great Western philosophers concerning the nature of reality and how it is known.

Focus on individual philosophers such as Plato, Aristotle, Descartes, Kant, Hegel, James and Wittgenstein.

PHIL102 Introduction to Philosophy

3 Semester Credits

Tuition: \$585

University of Delaware

An examination of central problems in the major areas of historical and contemporary philosophic thought, including ethics, theories of knowledge, the nature of reality, philosophy of religion and political philosophy.

Political Science

POL102 American Government (From the Telecourse "Government By Consent")

(Previously from the Audio Course "American National Government")

5 Quarter Credits

Tuition: \$370

Seattle Central Community College

Survey of the origin and development of the U.S. Government. Covers the structure of the Confederacy, Federalist papers, and function of Congress, the presidency and courts as well as interest groups, civil liberties, political parties and political policy.

POLS/WST305 Gender and Politics

3 Semester Credits

Tuition: \$495

Washington State University

This course will focus on the participation of women in American politics—both historically and in the contemporary period. It will include an emphasis on women's recent successes as candidates at both the state and national levels. Was 1992 really the "The Year of the Woman"? In addition, the course will include a careful analysis of many public policies which particularly impact women within American society, such as reproductive choice, women in the workplace and family law.

POLS402 Civil Liberties

3 Semester Credits

Tuition: \$495

Washington State University

This course discusses the origin and development of rights and civil liberties in the United States. Emphasis is placed on competing theories of justice in disputes over such issues as flag burning, school prayer, abortion, homosexual rights, the death penalty and equal treatment and affirmative action.

POLSC1113A-V American Government (From the telecourse "Government by Consent")

3 Semester Credits

Tuition: \$375

Oklahoma State University

Organization, process and functions of the national government of the United States.

*At this time the consortium certification for financial aid is not available from OSU.***POLSC3313 Governments and Politics in the Middle East**

3 Semester Credits

Tuition: \$465

Oklahoma State University

Analysis of political institutions and processes with emphasis on selected countries of the Middle East; the social and economic basis of politics; nationalism, political development and factors of instability and change.

*At this time, consortium certification for financial aid is not available from OSU.***POLSC4100V Problems of Government (From the telecourse "War and Peace in the Nuclear Age")**

3 Semester Credits

Tuition: \$465

Oklahoma State University

Special problem areas of government, politics and public policy, concentrating on topics not covered in other departmental course offerings.

*Prerequisites: 60 credit hours, or 45 hours with GPA of 3.25, including American government.**At this time the consortium certification for financial aid is not available from OSU.***POS111 American Government**

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Includes the background of the U.S. Constitution; the philosophy of the American government; general principles of the Constitution; civil liberties; public opinion and citizen participation; political parties, interest groups and the electoral process; and the structure and functions of the national government.

*Prerequisite: College-level reading and writing skills.***Psychology****ABSED3113A-V Psychological Foundations of Childhood (From the telecourse "Time to Grow")**

3 Semester Credits

Tuition: \$465

Oklahoma State University

The child from conception to puberty, focusing on educational implications of development in cognitive, affective and psychomotor domains.

*Prerequisite: Course in introductory psychology.**At this time the consortium certification for financial aid is not available from OSU.***IFST221 Child Development**

3 Semester Credits

Tuition: \$585

University of Delaware

The study of social-emotional, cognitive and psychobiological development in infancy and early childhood. Emphasis is placed on the child's development as it occurs in the family context. Direct observation required.

PSY101 General Psychology I

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Examines behavior including motivation, emotion, physiological psychology, stress and coping, research methods, consciousness, sensation, perception, learning and memory.

*Prerequisite: College-level reading and writing skills.***PSY102 General Psychology II**

3 Semester Credits

Tuition: \$360

Colorado Electronic Community College/Arapahoe Community College

Focuses on behavior including cognition, language, intelligence, psychological assessment, personality, abnormal psychology, therapy, life span development and social psychology.

Prerequisite: College-level reading and writing skills.
